- Node.js
- Express
- TypeScript
- Java
- PHP

EXPERIENCE

● FREELANCER

From 2021 to 2023 | Frontend Web Developer

As a freelancer it is important to keep up with the latest technologies and trends in web development. This can be difficult, since you have to do it yourself, but it is also crucial to stay relevant and competitive in the market. However, there are also challenges. Being a freelancer means finding your own clients, setting your own prices, and negotiating your own terms. This was difficult at first, but with practice and experience, I'm sure I can pull it off.

CERTIFICATES

Front End Development Libraries Certification

The course is designed to teach students how to build modern and dynamic web applications using popular JavaScript libraries and frameworks.

JavaScript Algorithm and Data Structures Certification

The course is designed to teach the fundamentals of data structures and algorithms, as well as their implementation in JavaScript.

Responsive Web Design Certification

The course is a set of lessons and exercises designed to teach the basic skills needed to create responsive websites for different devices and screens.
